**25 February 2016**

## CUMMINS TO HOST THREE PEOPLE AT TRUCKING AUSTRALIA 2016

Thanks to the generosity of Cummins South Pacific, three people will have the opportunity to attend Trucking Australia 2016 on the Gold Coast to share their suggestions on how to improve safety or business viability in the trucking industry.

Trucking Australia 2016 is the ATA's peak national event where operators are invited to help develop the trucking industry's plans and priorities. It will be held at the Sea World Resort from Thursday 23 to Saturday 25 June 2016.

The competition is open to all Australian trucking operators and their employees. To enter, tell us in 100 words or fewer what you think could be done to improve safety or business viability in the trucking industry, and what you would bring to the table at Trucking Australia 2016.

The three best entries will receive a trip to Trucking Australia 2016 to share their ideas, including:

- one full delegate registration
- three nights' standard accommodation at the Sea World Resort; and
- one return economy air fare to the Gold Coast from any Australian capital city.

Cummins South Pacific Manager- Automotive Sales and Customer Support, Scott Alexander, said the hosted delegate program meant that great ideas could be shared.

"Trucking Australia 2016 is all about industry coming together, sharing their ideas and experiences, and developing plans for the future," Mr Alexander said.

"Through this program, we aim to make sure that great ideas don't go unheard. If you have a plan for improving safety or business viability in the trucking industry, I encourage you to put it forward.

"We are proud to continue this partnership with Trucking Australia for our fifth year, and I look forward to meeting this year's winners during the event."

Entries must be submitted through the [online entry portal](#) by Friday 18 March, and will be judged by the experts at Cummins. The winners will be announced in the ATA's Friday Facts newsletter on Friday 1 April.

The full terms and conditions are available at the [Trucking Australia 2016 website](#).
